

Trainings

Acquires competencies to work on the reduction and prevention of food loss and food waste in your company, organization or educational center.

Activity description

- **Teacher education and training:** Training for primary and secondary school teachers on food loss and food waste so that they can implement educational projects in their schools to address the problem. Tailor-made resources to work on the issue with different age groups will also be presented.
- **Training for coordinators and/or monitoring and kitchen teams of school canteens** on food losses and food waste so that they can implement projects to prevent them in their center. Customized resources to work on the subject with different age groups will also be presented, as well as different methodologies for quantifying and reducing the generated waste.*
